## ***Licence for Use***

Copyright (c) 2009 Associated Controls (Australia) Pty Limited - All rights reserved. This software is subject to the terms of the licence agreement hereafter. This software may be used or copied only in accordance with the terms of this agreement. Purchasing a licence does not mean purchasing the software, which is and remains the sole property of Associated Controls (Australia) Pty Limited.

Using this software implies your acceptance of the following terms and conditions:

1. Unlicensed software  
There is no licensing on the software except to cover the illegal distribution of the software and manuals and any unique ideas contained within the software.
2. Registered software  
The registered software may be installed on several machines. The distribution of the registered Software to third parties is prohibited and doing so may incur legal action. Disassembly of the software by third party programs is prohibited.
3. Licence  
By purchasing a licence, the user agrees to all terms and conditions of the licence and this allows the user to use the software on any compatible computer.
4. Associated Controls responsibility  
In reply, Associated Controls (Australia) Pty Limited will endeavour to support the software for the life of the product.
